

SI REMOTE CARDIAC REHAB TRANSFORMATION SERVICES

CARDIAC REHAB SERVICES AND REIMBURSEMENT STRATEGY

- Assess your payer mix, patient population, and current cardiac rehab services
- Help determine types of remote rehab services you will provide (e.g. intensive, non-intensive, etc.)
- Develop a reimbursement strategy for both risk-based and fee-for-service

OPERATIONS TRANSFORMATION

- Gap analysis: Staffing, target population, current center-based rehab operations
- Define changes to facilities, personnel, processes and clinical workflow
- Assist in selecting appropriate devices

IMPLEMENTATION

- Customize the provider dashboards and patient communications
- Define and apply cardiac rehab protocols
- Design and implement automated workflows
- Train providers
- Assist with onboarding patients

CONTINUED SUPPORT

- Program review and adjustment to achieve expected benefits
- Ongoing review and adaptation of the reimbursement strategy
- Reporting and analytics
