

Datos Health Ltd.

Position: Product Owner

Tel-Aviv, Israel

**Datos Health is growing and looking to add a Product Owner to our team!
Join us and take part in one of the world's leading health care products during these challenging times.**

Who we are

Datos is a provider of a fully automated Remote Care platform, which represents a groundbreaking, innovative approach to patient care and data handling. Our platform is a true game-changer in that it delivers on the full potential of patient-generated healthcare data by enabling affordable, home-based medical sensors and EMR (Electronic Medical Records) data-driven automation and digitalization of patient journeys.

What we are looking for

We are looking for a highly talented product owner to join our growing team, who loves learning about new technologies and exploring their healthcare applications. To be successful in this role, you should be able to identify user needs and work with cross-functional teams to manage product releases. Ultimately, you'll help us roll-out products that deliver our company's vision.

Education & Experience

- Previous working experience as a product owner for 1- 2 years
- BSc in Computer Science, Engineering or similar field
- Experience with creating specifications (specifically the ability to understand business requirements) and delivering them to software teams using Agile methodologies
- Ability to have a 'big picture' understanding of the product goals as well as a detail-oriented approach to tactical tasks
- Strong analytical and problem-solving, planning and execution skills
- Excellent communication and interpersonal skills
- Previous work with health organization - advantage
- High level of English

**To apply for this opportunity, please send your CV and a cover letter to shiri@datos-health.com
The subject line should include the job title and your name.**
